Chapter 10 File Management

10.1 Search and Export All Files

10.1.1 Search Files

Purpose

Specify detailed conditions to search videos and pictures.

Step 1 Go to **File Management** > **All Files**.

Step 2 Specify detailed conditions, including time, camera, event type, etc.

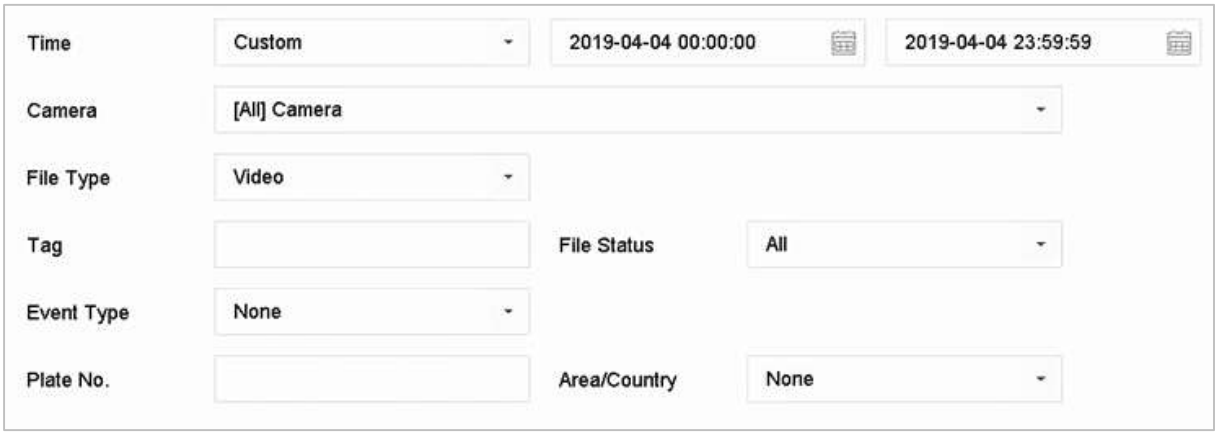

Figure 10-1 Search All Files

Step 3 Click **Search** to display results. The matched files will be displayed.

10.1.2 Export Files

Purpose

Export files for backup purposes using a USB device (USB flash drive, USB HDD, USB optical disc drive), SATA optical disc drive, or eSATA HDD.

Step 1 Search files to export. For details, see *10.1.1 Search Files*.

Step 2 Click files to select and click **Export**.

Step 3 Select the file to export as **Video and Log** and click **OK**.

Step 4 Click **OK** to export files to backup device.
